

IRELAND, DUBLIN (DUB3)

DUB3 LOCATION

Grange Castle Business Park, Old Nangor Road, Dublin 22

A FUTURE-PROOF FOUNDATION FOR YOUR IT INFRASTRUCTURE STRATEGY

Interxion's DUB3 carrier and cloud-neutral data centre provides the latest secure, scalable infrastructure for mission-critical IT systems, with a wide range of connectivity solutions.

AT A GALNCE

- Dublin - The gateway to Europe
- 2,320 sqm of newly build and equipped space in phase 1
- Designed to 2kw/sqm
- Low-latency connectivity to key European markets
- 40+ fixed and mobile carriers, ISPs and CDNs
- Direct access to the Internet exchange INEX
- Advanced fire detection and suppression systems
- Security staff on site 24x7, 365

Located just outside Dublin city centre, Our DUB3 data centre offers a multiple redundant infrastructure to meet all requirements in terms of reliability and performance. The data centre offers redundant power supply and air-conditioning (2N/N+1 configuration) and supports the most demanding high-density configurations.

Interxion's high-security data centre is surrounded by a security fence equipped with the most advanced alarm and monitoring systems. To ensure maximum energy efficiency DUB3 has been designed with the focus on energy-saving, modular architecture with adiabatic cooling, with maximum efficiency components as standard.

DATA CENTRE

- 2320 sqm of newly built and equipped space
- Located 15km from Dublin City Centre and 22km from Dublin airport
- Modular and redundant set up of fault-tolerant infrastructure
- Trained technical staff available 24x7

CONNECTIVITY

- Dual-entry, redundant fibre connections as well as high performance connections to all other Interxion data centres in Dublin
- Access to over 45 carriers/ISPs
- Direct access to INEX
- Redundant Meet-Me-Rooms
- SLA-based cross connects available to all Interxion customers at the Dublin campus

POWER

- N+1 generator backup with SLA on refueling
- N+1 power factor corrected modular UPS systems
- Up to 99,999% availability SLA
- High-density power configurations of up to 30kW per cabinet
- Full range of AC and DC output currents

SECURITY

- Trained security staff on-site 24x7
- Complete data centre area protected by security fence
- Multiple physical security layers including proximity cards, biometric access readers, CCTV, man traps
- 24x7 controlled access
- ISO/IEC 27001 Information Security Management certified
- ISO 22301 Business Continuity Management certified

CONTROLLED ENVIRONMENT

- 2N Advanced smoke detection systems (VESDA)
- Mechanical gas fire suppression system (dedicated per zone)
- (60 minute) fire retardant walls and steel doors
- ASHRAE standard based SLA
- N+2 CRAC units
- Entire facility infrastructure monitored 24x7 (Chiller, CRAC, Fire Panels, Generator, UPS etc.)

SERVICES

- Colocation: cabinet space, private and shared cages, private rooms
- Hands and Eyes: 24x7 installation and maintenance
- Extendable to over 40 data centres across Europe via a single service contract
- Meeting rooms and office space available
- Staging area / storage space

ENERGY EFFICIENCY AND SUSTAINABILITY

- 100% of purchased energy is green
- Phased modular architecture optimises Power Usage Effectiveness (PUE)
- Data centres operated to the highest energy efficiency standards
- Free cooling system - Adiabatic cooling and Cold Aisle Containment design

CUSTOMER SUPPORT

ISO 22301 Certification – British Standards Institution (BSI) standard for Business Continuity Management. ISO/IEC 27001 – accredited European Customer Support Centre (ECSC) provides support in 11 countries to the same rigorous standards.

- 24x7 facility and service monitoring
- Multilingual response (German, English, French, Spanish, Dutch)
- ISO 9001 Quality Management certified
